Benefits Debit Cards

DataPath has been helping clients get where they want to grow with account-linked benefits debit cards since 2002. Add a card to plans including health and dependent care FSAs, HRAs, HSAs, Transit/Commuter accounts, Lifestyle Spending Accounts, and more. Our all-in-one payment solutions cut down on benefits fraud while enabling you to be competitive and reduce claims processing. Plus, cards are proven to increase plan enrollment, promote higher client satisfaction, and give participants instant access to their benefit dollars.

DataPath's proprietary debit cards can link to any account-based employer benefit package and offer a stacked benefit environment that allows multiple plans on a single payment solution. Through your Summit portal, you can set up plan order logic so that the cards know which account to charge the card transaction against first.

Our benefits debit cards use DataPath's completely integrated, single-vendor platform for card issuance and authorization logic. We are an end-to-end card processor, and every related function stays in-house, backed by market-leading customer service and technical support.

Benefits for TPAs

- ◆ Create, issue, and administer debit cards
- ◆ Customize the card with your logo and brand
- ◆ Increase auto-substantiation rates
- ◆ Prevent benefit fraud with MCC restrictions and IAS integration
- ◆ Boost life count through increased adoption rates within existing groups

Benefits for Employers

- ◆ Increase participation in group plans
- ◆ Increase employee contributions to tax-advantaged accounts and associated employer FICA savings
- ◆ Give employees instant access to plan dollars

Benefits for Employees

- ◆ Get instant reimbursement for goods and services at the point of sale
- ◆ Reduce the need to submit paper claims for expenses
- ◆ View balances, upload receipts, and submit claims via mobile app

WHERE DO YOU
WANT TO
grow?

Summit debit cards can help you get there.
