

datapath. summit COMPASS Card

DataPath's COMPASS™ gets TPAs where they want to grow with a highly customizable debit card that can support almost any benefits program.

In today's rapidly diversifying benefits market, you need the ability to adapt and innovate without boundaries. Backed by extensive DataPath's experience in end-to-end card processing, COMPASS helps you address employers' specific needs, parameters, usage restrictions, and benefits accounts while delivering a first-class customer experience.

Supports Nearly Any Program Parameters

COMPASS can be used virtually anywhere in the U.S. Accommodate purchases by setting up desired program requirements and parameters directly within the DataPath Summit admin platform.

Set Usage Restrictions at the Plan Level

DataPath Summit lets you and your employer group restrict debit card usage only to specific merchant types. Set MCC code restrictions within Summit at the employer plan level without the need for intervention from our customer support team.

Unlimited Opportunity

The COMPASS card is perfect for such benefit programs as –

- ◆ Lifestyle Spending Accounts
- ◆ Employee bonuses and perks
- ◆ Qualified disaster relief payments under IRS Section 139
- ◆ Miscellaneous employee support programs (gasoline, groceries, heating oil, propane, etc.)
- ◆ Medicare Advantage/Medigap/Medicare Supplement programs for active employees or retirees

– and for just about any other programs that you may develop to serve the needs of your clients.

WHERE DO YOU
WANT TO
grow?
